G3 SUBWOOFERS

HIGH PERFORMANCE SUBWOOFERS

Designed to excel in a variety of applications, the G3 subwoofers feature great sensitivity allowing them to play loud and deep even with moderate power amplifiers. Utilizing our patented RadialVent® cooling and SureSet™ fuse protection, the G3 subwoofers offer exceptional power handling and reliability compared to conventional designs.

PERFORMANCE

- *2¾-inches of peak-to-peak excursion*
- *SPS™ (Soft Part System) technology*
- *RadialVent® cooling, patented*
- *SureSet™ fuse protection*
- *2½-inch 4-layer voice coil*
- *375 watts RMS power handling*
- *Customizable chassis*

EASY INSTALLATION

- *Versatile design works in small sealed, ported alignments, and even free air!*
- *Enclosure sizes the same as G2, & G1*
- *Integral sealing gaskets*
- *Compatible with GTR TunableRadiator™*

G312

G310

4 models:

G312-44	*12-inch dual 4-ohm (2- or 8-ohm)*
G312-4	*12-inch single 4-ohm*
G310-44	*10-inch dual 4-ohm (2- or 8-ohm)*
G310-4	*10-inch single 4-ohm*

gear TALK

SPS™: A removable assembly containing the cone, spider, surround, and voice coil allows you to add subwoofers while maintaining optimum overall impedance and full amplifier power. SPS™ also makes it possible for you to replace a damaged voice coil quickly and easily.
